Prices are a guide only based on Mecc Alte product and all work is individually quoted on a job-by-job basis.

- UK Mainland Carriage included on all orders below 350kVA. (Above 350kVA competitive carriage rates applied.)
- Any quote provided is valid for 30 days from submission.
- All costs quoted are subject to VAT at standard rate.
- Parts & Workmanship is warranted for a period of 3 years (on Mecc Alte product).
- Competitive prices offered across other brands such as Leroy, Stamford, Marelli etc.

## ALTERNATOR REFURBISHMENT

On machine receipt, a pre inspection is undertaken, photographically logging machine condition and its physical arrangement before the full inspection procedure begins.

- Detailed inspection is conducted through the dismantling process, with all critical dimensions noted. Wound components are subjected to an in-depth analysis. All components are cleaned and checked for faults.
- Wound components are washed, oven dried and put through a re-impregnation process.
- Severe environment total winding protection is included as standard.
- AVR, diodes and bearings are replaced.
- Alternator is re-assembled and dynamically tested with configured AVR. Detailed test reports are provided.
- Machine surfaces are coated with rust inhibitor and client's paint finish prior to despatch.
